## Data Sheet

## Bria iPhone Edition

*The softphone that fits in the palm of your hand*

Bria iPhone Edition is a highly secure, SIP-based softphone for Apple's iPhone and iPod touch. With Bria iPhone Edition, you can use a Wi-Fi or 3G connection to make and receive calls, or purchase premium features like presence and messaging to connect with contacts on Google Talk, Facebook, Yahoo! Messenger and more!

### Advanced User Interface

Bria iPhone Edition's intuitive user interface provides:

- Seamless integration with CounterPath's desktop softphones
- One-touch access to call management options such as voicemail, call history and speakerphone
- Support for 4-digit dialing
- Auto-attendant support

### PBX Extension

Bria iPhone Edition becomes an extension to your PBX! As an increased number of business professionals are using the collaborative tools found in smartphone devices to aid in their work activities, Bria iPhone Edition offers businesses an easy way to integrate their enterprises' voice solution within the Apple iOS family.

### Security

As voice communications have become more vulnerable to the same type of attacks that data has endured over the past two decades, enterprises are constantly trying to ensure that any software deployments are protected from vicious malware and viruses. Unlike other SIP-phone providers, with CounterPath's Bria iPhone Edition, you can take comfort that your calls are secure with advanced TLS and SRTP. Bria iPhone Edition brings the same strength and protection offered in the Bria desktop softphone to your mobile device.

### Premium Features

Want more than just voice calling? Bria iPhone Edition includes premium feature add-ons that can be purchased within the client. Simply go to the Premium Features button under the Settings tab to learn more about adding presence and messaging to your softphone or boosting your audio quality over 3G with a G.729 audio codec.

### Where to Buy

The commercial version of Bria may be purchased on Apple's iTunes Store. For customized versions of Bria iPhone Edition, contact your CounterPath sales representative for more information (bulk purchases only).
